## **Peer Evaluation of Group Work**

This form will help you evaluate your team and team members. Please list all of your team members in the space provided below. Then on a scale of 1 - 5 (1 being the lowest; 5 being the highest), rank your peers (and yourself) on how well you think you all did in a particular area. Don't forget to include yourself in the list!

Here is the scale: 1 = did not perform in this manner at all

- 2 = low performance in this area
- 3 = did okay in this area, but could have contributed more to the group
- 4 = contributed enough to be considered an active part of the group.
- 5 = performed great as an integral, vital part of the group in this area

Your instructor also would like to get an overall idea of how members of your group performed. In the space below, divide up 100 TOTAL points per person based on their contribution to the group. For example, if you think each member of the group (including yourself) contributed equally, then assign each member the same number of points. If you think you had some slackers or some high achievers in your group, then assign them less or more points. Again, please include yourself in this scoring. Don't forget that the total should add up to 100 points.
